Is there evidence of any impact on other groups not covered by the protected characteristics? If yes use the Comments column to describe what the potential impact is, what you could do to remove / reduce any negative impact and what you could do to benefit from any positive impact.

(For example, carer status, single parent, economic exclusion. It is important not to limit your thinking to just the protected characteristics listed above. The question is broadening the EQIA out to be more inclusive. The impact might be a negative one (e.g. making that decision could decrease the opportunity for some people to participate) or it could be a positive one (e.g. by making that decision, more people are able to take part in the activity).)

Yes

4. Have you consulted with the relevant groups (these could be internal and / or external) or gathered evidence for you to know the potential impact on these different groups affected? What sources have you used to gather information?

If there are any gaps in information that make it difficult or impossible to form an opinion on how your policy, service or change might affect different groups of people, please take the time to gather information to help you make an informed answer (for

example, review statistics, survey results, complaints analysis, consultation documents, customer feedback, existing briefings submissions or business reports, comparative policies from external sources and other Government Departments etc).

The Co-Production Working Group for the re-opening of the 2015 Fund have been consulted. This advisory group includes disabled people, carers, disabled people's organisations (DPOs) and representatives of ILF Scotland, the Scottish Government and health and social care statutory partners.

5. Having analysed the relevant sources of information, what does the evidence tell you? Is there any evidence that the proposed changes will have an adverse equality impact on any of these different groups of people?

Age: No

Disability: Yes

Gender Reassignment: No

Marriage and Civil Partnership: No

Pregnancy and Maternity: No

Race: No

Religion or Belief: No

Sexual Orientation: No

6. Please provide details of who the proposals affect, the adverse impacts and explain how you will minimise or remove the adverse impact.

The Threshold Sum is higher for recipients of the Fund as of 1 April 2024. However, there is a finite budget for the re-opening of the Fund and the objective is to reach those with high levels of unmet needs whilst managing the amount available in the Fund at this stage.

7. Is there any evidence that the proposed changes will have a positive impact on any of these different groups of people and / or promote equality of opportunity? Please provide details of which group / groups benefits from the positive impacts. and how this will be promoted / evaluated.

Age: No

Disability: Yes

Gender Reassignment: No

Marriage and Civil Partnership: No

Pregnancy and Maternity: No

Race: No

Religion or Belief: No

Sexual Orientation: No

8. Provide a final summary of the commitments / actions you will take as a result of completing this EQIA. Who will you consult with on your action plan and how will you do this to ensure the relevant stakeholders understand the equality impact?

We discussed the impact of the threshold sum fully with stakeholders as part of the Co-Production and engagement process. The Co-Production Working Group will consider alternatives to the threshold sum in 2024 to 2025.

9. Have you a plan in place to review your actions? Please provide a summary. Will plan require sign off and from where?

It is acknowledged that the re-opening of the 2015 Fund will require ongoing review and consultation. The Co-Production Working Group will continue to meet and engage with recipients and liaise with ILF Scotland on adjustments that may be required.
